PRINCIPAL INDIVIDUAL PLAYS

List **all** scoring plays; also non-scoring plays (including punts) gaining 50 yards or more, and all **missed field goal attempts**.

Under "type of play" indicate rush, pass, int. runback, punt runback, kickoff runback, punt or field goal. List tries-for-points as P.A.T. kick, P.A.T. rush or P.A.T. pass.

On pass play, give passer first, then receiver, and combined yardage of pass and run. Measure runbacks from goal line, if started in end zone. Measure field goal attempts from point of kick. All other plays are measured from line of scrimmage.

Type of Play	Player or Players	Team	Yards	Scored?
F.G.	TIMBERLAKE	M	43	0
RUSH ✓	TIMBERLAKE	M	2	6
✓PAT-KICK	TIMBERLAKE	M		1
PASS	TIMBERLAKE TO HENDERSON	M	33	6
✓PAT-KICK	TIMBERLAKE	M		1
RUSH ✓	TIMBERLAKE	M	7	6
✓PAT-KICK	TIMBERLAKE	M		1
RUSH	ANTHONY	M	31	6
✓PAT-KICK	TIMBERLAKE	M		1
RUSH	FISHER	M	3	6
✓PAT-KICK	SYGAR	M		1

SECTION 1 — FIRST DOWNS.

A first down shall be recorded whenever the yardsticks are ordered forward by the officials, and when a touchdown is scored from scrimmage (by rushing or passing) within a series of downs starting 10 yards or more from the goal line. A first down is **not** recorded on a touchdown runback, regardless of the distance of the scoring run.

SECTION 2 — RUSHING.

Article 1: All offensive running plays are to be classified as rushing plays, **not** as "plays from scrimmage," since any play begun with a snapback from center actually is a play from scrimmage.

Article 2: Rushing yardage is measured from the line of scrimmage to the point where the ball is declared dead, or is recovered by opponents in the case of a fumble.

Article 3: The rushing total is a **net** figure. All rushing losses must be recorded so as to account for the net figure.

Article 4: All gains on lateral passes which originated or grew out of a rushing play are included in rushing yardage. (See Article 1 of Section 4.)

SECTION 3 — FORWARD PASSING.

Article 1: Forward passing gains or losses are measured from the scrimmage line to the point where the ball is declared dead (or is recovered by opponents in the case of a fumble), so as to include both length of pass and running advance after completion. All yards gained or lost on each completed pass play are credited to **both** the passer and the receiver.

Article 2: Loss from a completed forward pass which did not advance the ball to the scrimmage line is a yardage charge against passing gain.

Article 3: Any loss by a player apparently intending to pass, but thrown behind the line of scrimmage, is recorded as a **loss by rushing**. He is **not** a passer until he has thrown the ball, and he retains at all times the option of running.

Article 4: Interception returns are measured from the point of interception to the point where the ball is declared dead (or is recovered by opponents in the case of a fumble).

Article 5: There is **no** pass completed by penalty. A gain through interference on a passing play is a penalty against the defending team. The passer is **not** charged with a pass attempt, nor credited with a pass completed or yards gained; nor is the intended receiver (or the player interfered with) credited with a pass caught. The passing team

is credited only with a first down by penalty. The defensive (offending) team is charged with a penalty, and the distance from the line of scrimmage to the spot of the penalty under "yards penalized."

Article 6: The forward passer is charged with a forward pass attempt when a forward pass is ruled intentionally grounded.

SECTION 4 — LATERAL PASSING.

Article 1: A lateral pass is always a component part of the ultimate play, whether it precedes or follows that play, since the lateral is merely an extension of the original or ultimate play, in effect.

(Approved Ruling — Player A receives a forward pass for a gain of 10 yards, then throws a lateral pass to Player B, who gains an additional 5 yards. Player A is credited with one pass caught and 10 yards under "receiving." Player B is credited with NO pass caught and with 5 yards under "receiving." Player who threw the forward pass is credited with 15 yards under "forward passing.")

(Approved Ruling — Player A catches punt and returns 10 yards before throwing a lateral pass to Player B, who returns another 5 yards. Player A is credited with one return and 10 yards under "punt returns." Player B is credited with NO return and with 5 yards under "punt returns.")

Article 2: Incomplete lateral passes are scored as fumbles, and yards lost are charged against the player who, in the scorer's opinion, was responsible for the failure of the pass.

Article 3: Intercepted lateral passes are scored as fumbles, the offensive team being charged with a fumble lost.

Article 4: The official scorer rules on whether a completed pass to a flanker or man-in-motion is a forward or a lateral pass. If the latter, the play is recorded under "rushing." If the pass is incomplete, the subsequent action of the officials reveals whether the pass was a forward or a lateral.

SECTION 5 — TOTAL OFFENSE.

Article 1: Total offense is the combined result of rushing and forward passing **only**, since these two are the only methods by which legal advance can be initiated while retaining possession of the ball.

Article 2: Total offense yardage is the total of **net** gain by rushing and net gain by forward passing. "Receiving" yards gained are **not** included in total offense.

WILD PASS FROM CENTER.

Any loss resulting from an **obvious** wild pass from center is charged to "center pass," and not to any individual player.

(Continued on back of Form 347-B)

for personal foul to the 18
M 1-10 N 18 Sieber off lt for 2

End of Game

MICHIGAN 35 NORTHWESTERN 0

COACHES' COMMENTS

Mich. v. Northwestern
Ann Arbor
Oct. 31, 1964

Bump Elliott:

We had the best combination of offensive and defensive effort we've had this year. We got the upper hand early and when we got those three touchdowns, we ~~immediately~~ simply went on from there. I think Timberlake had one of his better days, both in his calls, his running and passing. Anthony backed up the line for the first time today for awhile in the first half and did well on that. We put him in in place of Cecchini, who was out with a blow on the head. Yearby injured his shoulder again but I'm sure he will be O.K. for next week. Other than that, we had no injuries that were immediately apparent.

Alex Agase:

We were a different team than when we played Illinois four weeks ago. We were much stronger then and didn't have all these injuries. We allowed Michigan a total of 453 yards and that's not like us. We have been able to stop nearly every running attack we faced this season, but we weren't able to stop Michigan. We were defeated more soundly by Michigan than by Michi an State a week ago. Michigan leads the conference in offense and they proved their prowess today. They have an excellent backfield. Their offensive skills showed up very well and they showed us four fine running backs and a halfback who can also throw. As far as Northwestern is concerned, Tom Myers did a fine job--probably his best over-all job of the season. The defensive strength of Michigan is greatly under-rated.
